

A Fresh Start

Hello girls
and boys

September is a time for fresh starts. A new school year brings new opportunities, new experiences and new chances to grow. Even if we feel nervous sometimes, a fresh start reminds us that each new beginning is full of possibility.

A fresh start is not about being perfect. It is about trying again, learning something new and becoming the best version of ourselves. Every day gives us another chance to show kindness, work hard, help others and believe in ourselves.

Sometimes people think only big changes matter but small choices can make a big difference. Choosing to include someone in a game, trying your best with your work, listening carefully or using kind words can help make school a happier place for everyone.

Jesus always encouraged people to begin again with hope and courage. Don Bosco also believed in young people and reminded them that each person has special

gifts and talents. He wanted children to know they were loved, valued and capable of great things.

This year will bring exciting moments, challenges, laughter and learning. There may be days when things feel difficult but remember that no one succeeds alone. We help each other, encourage one another and grow together.

So as this new school year begins, take a deep breath and step forward with confidence. Be open to new friendships, new ideas and new adventures. Believe in yourself and never be afraid to try.

This September, let us choose hope, kindness and positivity. A fresh start could be the beginning of something wonderful.

God bless,

Toby
